

FIELD_OF_APPLICATION

This table contains fields of application that are associated with a particular award. The associated data is parsed from "Field Of Application(s)" field in the NSF data.

This table contains the following fields:

- *PK*: Automatically generated. Guarantees uniqueness.
- *ORIGINAL_INPUT_FIELD*: The exact string as found in the "Field Of Application(s)" field.
- *EXTRACTED_NUMERIC_FIELD*: Field of application can be split up into Numeric & non-numeric part. The value of this field is the extracted numeric field.
- *EXTRACTED_TEXT_FIELD*: The value of this field is the extracted non-numeric field.

It's primary key is used as a foreign key in it's relationship table with Award; see [AWARD_FIELD_OF_APPLICATIONS](#) for additional information.
